Dr. Glenn T. Seaborg Chairman Atomic Energy Commission Washington 25, D. C.

Dear Dr. Seaborg:

To provide the Secretary of Defense with intelligence support for long-term planning of U.S. force requirements, CIA and DIA have established a joint group to prepare ten-year projections of alternative Sino-Soviet force postures. (The terms of reference of the group and a list of the initial members are attached.)

I believe it essential that this group have evailable data which U.S. weapon systems research is developing. Not only will this provide a hasis for determining that which the Soviets may be reacting to in the future, but it can provide some insight into weapon development which technically appears feasible.

I would appreciate your assistance in this matter. To this end it would perhaps be most useful if you could designate some person in your office with whom _______ the Chairman of the group, might further explors the problem.

25X1

Sincerely,

CC: #81

MIMORANDUM FOR THE DIRECTOR

300 July

- 1. The CIA/DIA Joint Analysis Group (JAG) was in place in room & G 00 on 15 August. A full membership has been assigned (a list of their names and organizations is attached), and all will be present but one military member expected on 10 September.
- 2. I have made arrangements for close working relations with Dr. Enthoven in Mr. Hitch's office in the Department of Defense.
- 3. There is no problem with respect to JAG access to all pertinent intelligence information.
- and projected US weapon systems and to research and development activity, further action is indicated. I spoke to Dr. Gerald Johnson, Assistant to the Secretary (Atomic Energy) about this problem and he suggested that the group would require access to two areas of information with respect to nuclear weapons. The first would be current weapons and this could be obtained by a latter to Mr. McMamara requesting that the group be cleared for _______ The second would be the weapon research area and this would require a latter to Dr. Seaborg.

- 5. I also spoke to the Secretary of the Joint staff about this problem from the point of view of Joint Staff and Service activity in the weapon system field. He suggested a letter to the Chairman of the Joint Chiefs, either from yourself or from Mr. McHamara would simplify the question of access.
- 6. Attached are suggested drafts of letters you might send if you agree to the above proposals.
